

## SOLOdrive 261/S

#### SOLOdrive

SOLOdrive offers industry-best Natural Dimming to dark - LED dimming made beautiful! With any dimmer, in any application. Symbiosis on SOLOdrive stands for unity, for the SOLOdrive working seamlessly together with LED modules, controls and intelligent luminaire elements.

### **Product offering**

SOLOdrive 261/S

| SOLOdrive, 20W, 0-10V, 1 control channel, constant current, 1x 55V output, side feed, metal square  |
|---|
|   |
| Dim to dark, smooth brightness changes, excellent flicker performance, adaptable dimming curves, configurable minimum dimming level                 |
| Configurable design to work with most constant current LED modules and arrays, while providing a connection point to integrated peripheral controls |
| Fine-tune your driver for any application   |
| Universal input voltage range, low inrush current and total harmonic distortion (THD), high power factor and efficiency                             |
| Hybrid HydraDrive technology is proven to work in TV studios and security camera environments   |
|   |

| Project name:            | Contact details: |
|--------------------------|------------------|
| Project number:          |                  |
| LED driver order number: |                  |

# SOLOdrive 261/S

### Typical flicker performance

#### Typical flicker performance

Typical flicker percent as a function of frequency, measured across the dimming range. The results are overlaid with the low-risk (yellow) and no observable effect (green) levels as defined in IEEE P1789.

### **Electrical specifications**

| Driver type                           | Constant current  |
|---------------------------------------|---|
| Number of LED outputs                 | 1   |
|                                       | (UL Class 2)  |
| Maximum LED output power              | 20W   |
| Programmable LED output current range | 150 - 1400mA  |
| LED output type                       | Programmable in 1mA increments within specified current range |
| LED output voltage range              | 2 - 55V   |
| Nominal input voltage range AC        | 120 - 250V (ENEC), 120 - 277V (UL)                            |
| Nominal input voltage range DC        | 120 - 250V  |
| Control protocol                      | 0-10V   |
|                                       | LEDcode   |
| Control channels                      | 1   |
|                                       |   |

General Terms and Conditions

| Dimensions, weight, packaging |                            |
|-------------------------------|----------------------------|
| Length (L)                    | typical: 130 mm / 5.12 in  |
| Width (W)                     | typical: 70.9 mm / 2.79 in |
| Height (H)                    | typical: 28.5 mm / 1.12 in |
| Weight                        | 285.5 g                    |
| Products per box              | 48 pcs                     |

## **Connector layout**

## Order number configurator

| OOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO | DODmin<br>Minimum<br>dimming level DODD<br>Start-up<br>performance  |
|--|---|
| P/N                                    | LED driver part number  |
| LED output current                     | Enter value in 1mA increments, e.g. "811" for 811mA   |
| Dimming curve                          | "LOG" for logarithmic (default)<br>"LIN" for linear<br>"SLN" for soft-linear<br>"SQU" for square  |
| Minimum dimming level                  | Leave blank for default minimum dimming level of 0.1%. Specify in 0.1% increments, e.g. "10.5" for 10.5%.   |
| Start-up performance                   | Enter "CA24" for improved start-up performance to comply with ENERGY STAR<br>Luminaires v2.0 and the latest CA Title 24 standard, effective January 2017. |
